

FOR IMMEDIATE RELEASE

### Company Receives Small Business Express Grant from State of Connecticut

Durham, Connecticut – November 2012 – Technical Manufacturing Corporation, a leading supplier of contract electronics manufacturing services to the aerospace and defense industry for mission-critical, high-reliability and harsh environment applications, announced this month that it has received a \$100,000 small business matching grant from the State of Connecticut. The grant is designed for small businesses with less than 100 employees to help spur job growth and creation in Connecticut. Matched dollar-for-dollar by the company for a total of \$200,000, the grant money was used primarily to acquire capital equipment and to hire and train at least three new employees to date in order to support current and projected business growth that is forecasted into and throughout the next calendar year.

“On behalf of all of the employees at Technical Manufacturing Corporation, I want to thank Governor Malloy, the Department of Economic and Community Development and the Middlesex Chamber of Commerce for making this grant possible in order to help support job creation and business growth, especially in the manufacturing sector”, said Mr. Fred Bonito, Vice President of the company. “It is encouraging that the State of Connecticut recognizes the importance and need for a solid manufacturing base by offering programs like this that directly supports small businesses”, he said.

### About Technical Manufacturing Corporation

Technical Manufacturing Corporation is a Connecticut-based contract electronics manufacturing company that has been successfully providing electronics manufacturing services to companies worldwide since 1985. We build a wide variety of electronic and electromechanical products for our customers, which are used in many different commercial and military applications across all industries including the medical, computer, automotive, aerospace, test & measurement and telecommunications industries.
