

FOR IMMEDIATE RELEASE

Intertek Rates Internal Audit Modules in the Quality Management System as Outstanding during S2 Surveillance Audit

Durham, Connecticut – May 2023 – Technical Manufacturing Corporation, a leading supplier of printed board assembly services to the Aerospace and Defense industry for mission-critical, high-reliability and harsh environment applications where reliability and continued performance is critical, announced this month that the Management and Internal Audit modules of the Quality Management System were rated as Outstanding by the Intertek Maturity Model during the S2 surveillance audit performed this month. An Outstanding or level 5 rating is the highest possible score that can be achieved and represents the benchmark against which all other Quality Management Systems can be compared. The company's Corrective Action, Continuous Improvement, Operational Control and Resource Management modules all received a Mature or level 4 rating. According to David Bonito, Management Representative for the company, "We are all proud of the fact that as a small company we have been able to develop and maintain a best-in-class Quality Management System that is typically only found in much larger companies that we can use to fully satisfy the safety, quality and delivery requirements that our customers demand to help support the defense industrial base in this country."

About Technical Manufacturing Corporation

Technical Manufacturing Corporation is a Nadcap accredited contract electronics manufacturing company that has been successfully supporting the Aerospace and Defense industry since 1985 based on safety, quality and delivery. We specialize in high reliability printed board assemblies for use in land, sea, air and space applications where operation and continued performance is critical.
