

FOR IMMEDIATE RELEASE

Company Celebrates 40 Years in Business Anniversary Milestone

Durham, Connecticut – January 2025 – Technical Manufacturing Corporation, a leading supplier of printed board assembly services to the Aerospace and Defense industry for mission-critical, high-reliability and harsh environment applications where reliability and continued performance is critical, announced this month that this year marks the company's forty (40) year anniversary in business. According to David Bonito, Sales & Marketing Manager for the company, "Reaching a 40 year milestone as a manufacturer from our modest start in 1985 is a tremendous achievement, especially in the highly regulated aerospace and defense industry where companies must continually respond and adapt to changing economic and political environments. I would like to express my gratitude and appreciation to all of our highly valued employees, suppliers and customers for their unwavering support and dedication to our mission as we would certainly not be here today without them. We are all very proud to have been able to support the Defense Industrial Base in this country for so many years and look forward to help protecting our nation's war fighters with safe and reliable circuit card assemblies that will operate and perform as expected in all harsh environmental conditions for many more years to come."

About Technical Manufacturing Corporation

Technical Manufacturing Corporation is a Nadcap accredited contract electronics manufacturing company that has been successfully supporting the Aerospace and Defense industry since 1985 based on safety, quality and delivery. We specialize in high reliability printed board assemblies for use in land, sea, air and space applications where operation and continued performance is critical.
